Calibration of a Touchscreen

The following procedure will guide you through the Touchscreen calibration of the E Series E-TRe and E-TRxe treadmills.

**Difficulty: Easy**

No Tools Required

**STEP 1**
- Start on the default screen (Figure 1).

**STEP 2**
- Press and hold the VOL ‘+’ key and the CH ‘+’ key and the number ‘3’ key on the keyboard at the same time to enter the Service Menu (Figure 2 and 3).

**STEP 3**
- Press the number ‘5’ key (Figure 4) on the keyboard or touch “Calibration Setup”.

**STEP 4**
- Enter the password “2 1 8” and press “OK” (Figure 5 and 6).

**STEP 5**
- Press the number “5” key on the keyboard or touch “Touchscreen Cal” (Figure 7 and 8).

**STEP 6**
- Once in Touchscreen Calibration Mode, you will see a grey box with red notes on the left side (Figure 9).

**STEP 7**
- Turn the power off using the power switch.
- Wait AT LEAST 30 seconds before turning back on. When prompted touch the screen on the crosshair (Figure 10).
  - Note: The crosshair will appear on the screen three times in different positions each time.

**STEP 8**
- Test unit for proper function.
